Window Description

This Shipping Container Window is one tough and stylish window! This window looks as good as it is strong. Designed for maximum security, the grate can be opened from the inside allowing an un-obstructed view. The Window is 3' x 3' and can be welded or bolted on to the container wall. The frame is made of 14 gage steel square tubing.

***Warning** - All products that require installation or fabrication should never be done until you have the product in hand to take exact measurements. While every attempt is made to make sure product specifications are accurate in these pages, there is the possibility the products have been updated or a small variance between production has made the measurement off from what's in this book. Installation of our products may require some fabrication experience, and in no way does warranty cover installation mistakes.
